Profile

I'm a Junior Developer and Makers Academy alumni, striving for a position where I'm constantly learning and developing my skills and knowledge in software development. My passion for technology and problem solving encouraged my research into a career in this industry. I chose Makers as my training provider because of their great track record and emphasis on practical, real world experience, pair programming and holistic development. Makers furthered my skills with Ruby and Javascript, taught me the importance of effective Github collaboration practices and reinforced my skills with teamwork and problem solving. For a list of all the projects I've worked on, please visit my GitHub linked in the header to see some examples.

Projects

Road To Discovery

App which allows a user to generate a playlist within a short period of time. Tech Stackincludes React, Node, Javascript, Spotify Web API, Travis CI, Heroku
https://github.com/Team-react/Playlist_App
https://road-to-discovery.herokuapp.com/

IsItBusyOrNot

App which allows users to search for a location and see how busy it is. A Hackathon team project on the brief of COVID-19, made in 2 and a half days. Tech Stackincludes React, Express.js, Twitter API, OpenLayers API, Heroku
https://is-it-busy-or-not.herokuapp.com/
https://github.com/Peter2-71828/IsItBusyOrNot

Bank Tech Test

Tech Test built over a 3 day period, using irb you can make deposits, withdrawals, check the balance of your account and print a statement. Tech Stackincludes Ruby, RSpec
https://github.com/Thatguy560/Banktechtest

Gilded Rose Refactoring

Another Tech test that involved cloning a repository, reading it, writing some tests and then refactoring the legacy code. Tech Stackincludes Ruby, RSpec
https://github.com/Thatguy560/GildedRose-Refactoring-Kata

- **Languages & Frameworks -** Ruby, JavaScript, HTML, CSS, Rails, React, jQuery, Sinatra, Bootstrap, PostgreSQL

- **Practices -** Object Oriented Programming, TDD, MVC, Domain-driven design, Agile/XP, RSpec, Jasmine

- **Soft Skills -** Communication, Attention To Detail, Problem Solving, Adaptability, Teamwork

Education

Makers Academy 01/2020 – 05/2020
Software Developer Bootcamp, London Liverpool Street

My studies with Makers Academy helped establish the basic skills required for a career in software development. This education has provided a good understanding of the subject and given me the confidence to tackle increasingly complex projects. My current language of choice is Ruby but I also have a working knowledge of Javascript.

BPP 07/2017 – 11/2018

AAT Level 3

Kaplan Financial 10/2015 – 10/2016

AAT Level 2
